

Cosmetic Face Surgery Workshop
Preliminary Program
June 4-6, 2010

Privatklinik Lisborg & Partner
Klagenfurt, Austria

Course Director:

Peter Lisborg, MD Austria

Faculty:

Pat McMenamin, MD USA

Joe Niamtu, MD USA

Guillermo Blugerman, MD Argentina

Gerhard Sattler, MD Germany

Mario Gioia, MD Italy

Jan Sæther, MD Denmark

Friedrich Anderhuber, MD Austria

Hermann Raunig, MD Austria

Matthias Sandhofer, MD Austria

Heribert Rainer, MD Austria

This AACS-course will cover the fundamentals of cosmetic face surgery. Anatomy and surgical theory will be followed by live surgery with the possibility of hands-on participation. Surgeries will include blepharoplasty, face-lift, brow-lift, rhinoplasty and non-invasive procedures. Video transmission of all operations will also be offered. Particular emphasis will be given to safety and standards. Participants will not only see the latest technologies but also new operative techniques. It is of particular notice that the faculty not only includes nationally and internationally renowned colleagues but also the current President of the American Academy of Cosmetic Surgery, Pat McMenemy and the master of motivation Joe Niamtu. Guillermo Blugerman has often been called the most innovative surgeon and the international faculty is rounded up by Mario Gioia, a truly experienced man from Naples and the brow-lift specialist Jan Sæther from Denmark. So we certainly look forward to this exciting event and invite all interested colleagues to take part. Certificates of attendance as well as CME credits will be provided.

Friday 4th of June 2010

Oculoplastic Surgery

- 08:00 Welcoming Remarks – Peter Lisborg, MD
