Cosmetic Surgery Meeting in Vienna
September 13-15, 2007

Introduction
As President for the 6th annual meeting of the Austrian Academy of Cosmetic Surgery I want to welcome you, along with Peter Lisborg, Vice-President, to what I know will be an exciting experience in furthering our knowledge of cosmetic surgery. Members of the American Academy of Cosmetic Surgery believe strongly in the multidisciplinary nature of cosmetic surgery and the benefits of cross-fertilization of various specialties in gaining knowledge and expertise in performing cosmetic surgery. How else can our patients benefit from advances in each of our fields such as dermatology, facial plastic surgery, plastic surgery, oculoplastic surgery, general surgery, and oral-maxillofacial surgery. And what could be a more magnificent location than Vienna to share the collegiality of international experts in their fields, as we come to enjoy the spirit of camaraderie that characterizes this exciting meeting.

Please join us.

GENERAL INFORMATION

About Austria
With a population of approx. 8 million, the Federal Republic of Austria, ranges among the small European countries. Austria, a member of the European Community, is situated in the heart of Europe. It has been and still is a route of transit from East to West and vice versa, a fact which of course caused a multinational nature of its population. Austria has a very low rate of criminality, a low unemployment rate and the lowest strike incidence within the European Community. Austria's landscape is offering a great variety. You will find high mountain regions in the Western part of the country and lowlands similar to the Hungarian Puszta in its easternmost province - Burgenland. You may admire the lovely Danube valley in Lower Austria, walk through large forest areas in Styria or enjoy the Lake Districts of Upper Austria and of Austria's southernmost provinces, Carinthia.

About Vienna
Vienna, the capital of contemporary Austria was for a long time capital of a large empire, still evident in its international atmosphere, culture, population and cuisine. If any city can claim to be the capital of music, it is Vienna. Famous composer resided here or spent at least a greater part of their lives in Vienna: Hayden, Mozart, Beethoven, Schubert, Brahms, Bruckner, Strauß, Mahler, etc. Vienna is beautiful old and new. You may find Romanesque, Gothic and Baroque churches and castles as well as Art Nouveau houses and underground stations built by Otto Wagner, Joseph Hoffmann and Alfred Loos. Modern architecture that has caused a stir includes Fritz Wotruba's church, Friedensreich Hundertwasser's apartment complex and Hans Hollein's shop fronts. One of the world's largest collection of paintings of the last centuries is housed in the Museum of Fine Arts. On the other hand modern Viennese painters may doubtlessly compete with the international scene: Schiele, Kokoschka, Fuchs, Leherb, just to name a few of them. Discover the atmosphere of the "city of waltz" and experience the famous Viennese "Gemütlichkeit" (coziness).

Badges
Participants are kindly requested to wear their name badges during the whole conference.

Certificate of Attendance
Confirmations of attendance will be issued at the registration desk.

Coffee Breaks
During the session breaks refreshments (coffee, tea, water) are being served free of charge to participants wearing name badges.

Passports and visa
Passport-holders from countries in Western Europe as well as from North America and Australia will not need a visa to enter Austria. For some nationalities the visa can be issued at the airport in Vienna upon arrival. Others may have to apply before. Please contact the Austrian Embassy or consulate in your country for detailed information.
