

**1 TREATMENT, 1 HOUR, 2.8 CM REDUCTION<sup>1</sup>**

Nonsurgical fat reduction with the *LipoSonix*™ system

# Break the Fat Barrier™

Introducing the *LipoSonix* system—an advanced nonsurgical, non-invasive ultrasonic treatment that effectively reduces subcutaneous abdominal fat. Only the *LipoSonix* system employs both high intensity focused ultrasound and a high frequency to effectively target and permanently eliminate fat from the treatment area. This combination creates a controlled thermal effect without damaging the skin or underlying tissue. The proprietary design of the *LipoSonix* system allows you to adjust the energy level and the depth of focus to tailor the treatment to meet your patient's needs. This provides visible results your patients will appreciate—average 2.8 cm waist circumference reduction.<sup>1</sup> Results typically seen after 8 to 12 weeks. Office visit time and individual results may vary.

 **LipoSonix**  
Focused fat reduction™  
WWW.LIPSONIX.COM

The *LipoSonix* system uses non-invasive, focused ultrasound to treat subcutaneous abdominal adipose tissue.

#### Important Safety Information

During treatment as recommended, patients may experience discomfort, pain, cold, prickling, tingling, or warmth. The most common post-treatment side effects include temporary erythema, mild ecchymosis, discomfort, and edema.

The *LipoSonix* system is not for use in patients with a coagulation disorder, using anticoagulants or platelet inhibitors, or who have an implanted electrical device. Not for use in patients with a BMI >30 or in areas with less than 1 cm of adipose tissue beyond the selected focal depth, or in areas previously treated with injection lipolysis, liposuction, abdominoplasty or other surgery including laparoscopic, or where hernia, implanted material, sensory loss or dysesthesia are present. Treatment is contraindicated for patients with cancer, systemic disease, or who are pregnant or suspected to be pregnant.

For additional product and safety information please visit [www.LipoSonix.com](http://www.LipoSonix.com) or refer to the *LipoSonix* System User Manual.

# WELCOME TO VIENNA!

Dear Friend of the ISDS,

Gary J. Brauner, MD

Willkommen- welcome—please join all the rest of your dermatological friends and peers at our Celebratory 30th Annual International Congress of Dermatology, this time in classic and beautiful (Wien) Vienna, Austria. It is hard to believe our society has been educating physicians around the world for three decades now and continues to find new avenues for advancing our education. Dr Matthias Sandhofer and Dr. Gerhard Sattler have put together an imposing program preceded by an Anatomical Workshop, 9 Breakfast Sessions, 2 Live Surgery Workshops, 6 Precongress Workshops and 4 Master Courses additional to the outstanding Scientific Program.

Former presidents of the ISDS will share their life long experience in a special Anniversary Session. This all together will satisfy everyone's needs surrounded by the typical ISDS Social Program. Looking forward to greeting you all and sharing our knowledge together,

GARY BRAUNER MD  
President of the ISDS

Welcome to Vienna

Matthias Sandhofer, M.D.

It is a pleasure to invite you on behalf of the ISDS to the 30<sup>th</sup> anniversary meeting of our society. Our theme is "Hidden Treasures of Dermatologic Surgery". Dermatologic Surgery is one of the fastest growing disciplines despite the economic crisis. The knowledge of fundamental dermatologic and anatomical basics in combination with new techniques and technologies is the key to future developments. This dynamic process is enhanced through the participation and contribution of colleagues from all around the world. Vienna as gate between east and west in Europe and cultural metropolis with a long tradition in medicine and dermatology suits particularly well to host this important event. Together with

our past president and program-chair, Gerhard Sattler, we will attempt to make a good blend of scientific and cultural program with the harmony of a composition of Mozart or the swing of a waltz of Strauss. I am looking forward to greeting you all in Vienna at the Hilton Hotel in November.

MATTHIAS SANDHOFER, M.D.  
Congress President

Welcome to the former imperial city of Vienna in the heart of Europe.

Eva-Maria Kokoschka, M.D.

An exquisite scientific program which covers the newest standards of Dermatological Surgery, Phlebology and Anti-Aging Strategies is waiting to be discussed by worldwide experts. Not only for scientific reasons, but also for cultural highlights, Vienna is a promising hot spot. In Vienna, the most famous composers, artists, architects and painters have been living and working more numerous than in any other city of Europe. Music is an important ingredient of the Viennese Air.

Virtuous Solist's, genial conductors, and the worlds best orchestras – they all love to come and bring this world's music to Vienna. This is not only because of the longstanding tradition of the famous Vienna Opera House, the concert halls of the Musikverein and Konzerthaus, but also because of the specific Genius Loci of the Worlds headquarter for classical music.

"Willkommen, Welcome, Bienvenue in Vienna"

EVA-MARIA KOKOSCHKA, M.D.  
Honorary Congress President

To all who cherish Dermatologic Surgery!

Gerhard Sattler, M.D.

The ISDS has taken the field of education one step further in this year's annual meeting in Vienna. Dermatologic Surgery is facing the responsibility to play the role of an interlocutor between the different medical specialties of Dermatology, Plastic Surgery, Anatomy and Anti-Aging Medicine including Internal Medicine, Endocrinology and Sport Medicine. Modern cosmetic dermatologic surgery encourages serious aesthetic demands of patients who are in need of enhancement of their outer appearance as well as their prospective physical and endocrinologic well-being. For the first time, the ISDS Annual Meeting is being held in Vienna in cooperation with the Austrian Academy of Cosmetic Surgery and with the Austrian Society for Dermatologic Cosmetology and

Antiaging of the Skin. This global approach of finding answers for multidisciplinary questions of skin aging and age related disorders of the skin is a new and exciting development in how far our understanding in our field has come.

For every one of us, Vienna will be a milestone to understand where we are coming from and where we are heading to. Come and participate as well as benefit from an outstanding faculty and an excellent scientific program. Join us for education, for friendship and for a once in a lifetime social program experiences. "Welcome to Vienna, can't wait to see you"

GERHARD SATTLER, M.D.  
Program Chair, Executive Director of the ISDS

**REGISTRATION FEES**  
Payable by credit card or cash in Euros

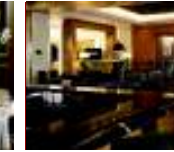

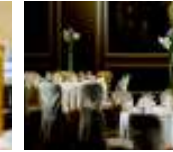

**ADVANCED REGISTRATION**  
The advanced registration deadline is September 25, 2009. This means that the congress office must receive all advance registrations and payments by this date. The deadline will allow us to adequately plan and confirm your participation. All attendees are strongly encouraged to register in advance for the meeting space is limited and registration will be granted on a first-paid basis only.

**OFFICIAL LANGUAGE IS ENGLISH**

**SPOUSES AND GUESTS**  
It is always the Society's pleasure to welcome the spouses and families of meeting registrants; however, each guest is required to purchase a special spouse badge in order to participate in any social event.

**CME CREDIT**  
The International Society for Dermatologic Surgery's 30th Congress is a CME credit points recognized meeting.

**PHOTO AND VIDEO SHOT ARE STRICTLY  
FORBIDDEN DURING THE ENTIRE MEETING**

**REGISTRATION CONFIRMATION**  
Each attendee registered in advance will receive a confirmation of registration by the congress office. Please bring a copy of your registration confirmation letter to on-site registration to speed up the process. If you do not have a confirmation letter and there is no record payment receipt by the congress office, you will be required to provide payment on-site, even if you think a payment was remitted previously. Any duplicate payment resulting will be resolved following the meeting.

**ON-SITE REGISTRATION AND BADGE PICK-UP**  
The congress office registration desk will be located in Hilton Vienna, Vienna/Austria. Please keep in mind that on-site-registration can be time consuming. Everyone is strongly encouraged to register prior to September 25, 2009 deadline in order to avoid delays, filled courses and having to pay a higher registration fee. You are reminded to bring your confirmation letter with you when you pick up your badge and meeting material.

We recommend that attendees allow sufficient time to pick up their badges prior to the meeting, to avoid the last minute lines that may result in a missed session.

**PLEASE WEAR YOUR BADGE!**  
No access into the Venue and Congress sessions will be allowed without wearing the badge. Attendees and their guests are required to pick up and wear their conference badges at all times throughout the meeting. This allows us to ensure that only our paid registrants are benefiting from this educational opportunity and helps provide adequate security for your safety. Your badge colour code also helps staff of direct you to the meeting room location for which you are registered. If you misplace your badge, simply show your confirmation letter or on-site payment receipt for a replacement badge.

**CANCELLATION**  
We will refund the complete registration fee with a 50,00 Euro processing fee if written cancellation reaches us before September 15, 2009. We will refund 50 % of the total payment if written cancellation reaches us before September 30, 2009. After this date no refund will be possible. - No refund will be made for no-shows or early check-out date.

**LIABILITY**  
The congress organizing committee and congress office acts as an intermediary and is not responsible or liable for any medical expenses, loss, accidents or damages to people or things during the entire conference independently of their origin. Any other agreement will only be effective in writing and signed by both parties.  
Organizers can not assume liability for any changes in the program due to external or unforeseen circumstances.

 »AWT® – Cellulite and body shaping treatment with acoustic waves«

**AWT®**

**Effective Body Shaping and Cellulite Treatment**

AWT® – Acoustic Wave Therapy  
 Acoustic waves have been used in medicine with great success since 1980 for the disintegration of kidney stones (ESWL) and since 1992 for the treatment of orthopaedic conditions such as tendon and muscle disorders (ESWT).

Close co-operation with leading aesthetic institutes in the United States, Switzerland and Germany has now set pioneering treatment standards in anti-ageing medicine.

- ▶ Cellulite
- ▶ Body shaping
- ▶ Weak connective tissue
- ▶ Improvement of skin texture
